

# DAF/AFMC

# REOPTIMIZATION

## GREAT POWER COMPETITION

The DAF reoptimization effort is broadly organized into four high-priority enterprise focus areas requiring change:

- DEVELOP PEOPLE
- GENERATE READINESS
- PROJECT POWER
- DEVELOP CAPABILITIES\*

\* DAF-directed changes to AFMC fall primarily within the Develop Capabilities focus area.

**IDO**  
INTEGRATED  
DEVELOPMENT  
OFFICE

AFMC STANDS UP  
NEW  
OFFICE  
& NEW  
CENTER

**AFIDSC**  
Air Force  
Information  
Dominance  
Systems  
Center

Builds execution-ready acquisition programs, via early systems engineering & program planning, for transition to the Systems Centers.

Develops, delivers, and supports integrated C3BM, cyber, electronic warfare, information systems, and IT warfighting capabilities.

**AFLCMC**  
Air Force  
Life Cycle  
Management  
Center

Develops, delivers, and supports interoperable air systems and conventional weapons, and drives integration across the product support enterprise.

**AFADSC**  
Air Force  
Air Dominance  
Systems  
Center

**AFNWC**  
Air Force  
Nuclear  
Weapons  
Center

Develops, delivers, and supports nuclear weapons and command & control systems, and drives integration across the nuclear materiel enterprise.

**AFNSC**  
Air Force  
Nuclear Systems  
Center

Changes within the other AFMC Centers will continue to be aligned to the existing AFMC Strategic Plan.
